Dear Hiring Manager,

My name is Syed Qasim Raza Fatimi. I'm from Muzaffarabad Azad Kashmir, a remote area of Pakistan. I completed my Bachelor's in Computer Systems Engineering with a specialization in Data Science and Analytics at the Islamia University of Bahawalpur with a CGPA of 3.65 out of 4 (Equivalent to 1.5 in the German Grading System).

Despite limited resources, I have pursued self-learning and online courses to enhance my skills. I have completed different training courses, such as SQL for Data Science, Kaggle's Data Cleaning course, Google's Python Crash Course, and Python for Data Science. I completed an 8-month AI training program offered by Pak AI Vision Group and a 3-month NAVTTAC course in Data Mining and Business Intelligence. I worked as a data science intern at STEM EYE for six months, and I also worked on numerous real-world projects on Fiverr.

My noteworthy projects include The Student's Performance Evaluation Using ANN, Vehicle Entrance System for IUB, Forensic Sketch to Image using DCGAN, Legal Chatbot of Police Act using RAG, Text To SQL using RAG, EDA on Titanic Dataset, EDA Dashboard on Sales Analysis using Streamlit, Super Store Dashboard using Power BI, HR Analytic Dashboard in Power BI, Website Traffic Management Dashboard, Chefs Data Analysis using Power BI, Amazon Sales Data Analysis, Dashboard in MS Excel, Student's Result Reports in Power BI. The projects give me hands-on experience in using Data Mining tools.

During my engineering program, I participated in different extracurricular activities. I served as General Secretary of the IEEE Systems Man and Cybernetics Society and I was President of the IUB Kashmir Society, a university-level society. At Islamia University of Bahawalpur, I presided over the Kashmir Community which works to facilitate Kashmiri students in the university. I was also a part of the Departmental Book and Chess Club. I contributed to environmental sustainability initiatives like the Scouts' Plantation campaign. These activities helped me to polish my organizational, communication, teamwork, leadership, and public dealing skills.

My career goals align with the commitment to sustainability and innovation that many forward-thinking organizations prioritize, and I am eager to contribute to their Data Science initiatives. I can leverage my knowledge of Data Science to effectively address the unique challenges and requirements in this field. With a solid foundation in Data Science and experience in real-world applications, I believe I am an ideal candidate for the Data Scientist role. I am confident in my ability to make meaningful contributions to the team by utilizing my technical expertise, problem-solving skills, and strong commitment to delivering high-quality solutions.

Thank you for considering me as a strong candidate and reviewing my skillset. I look forward to the opportunity to discuss how I can contribute to company's continued success.

Sincerely,

**Syed Qasim Raza Fatimi**
