ABOUT ME

Data Scientist and AI Engineer with 3+ years of experience building data-driven and generative AI solutions across healthcare, finance, and enterprise operations. Skilled in machine learning, deep learning, retrieval-augmented generation (RAG/GraphRAG), and agentic AI systems, with a strong record of translating research and theoretical foundations into deployed, production-grade applications. Passionate about applying data science to address real-world challenges in healthcare and agriculture, with an aspiration to contribute to cutting-edge research in the field.

WORK EXPERIENCE

25/03/2026 - CURRENT - ISLAMABAD, PAKISTAN

DATA SCIENTISTNOBILITY RCM

- Developed a Medical Notes Compliance Checker using GraphRAG to validate clinical documentation against compliance requirements.
- Built a Patient Notes Summarizer and Patient Management System using prompt engineering and FastAPI to streamline clinical workflows.
- Designed an Employee Policy Handbook Chatbot using Retrieval-Augmented Generation (RAG) to automate HR policy queries.

01/10/2024 - 23/03/2026 - ISLAMABAD, PAKISTAN

AI ENGINEER CARECLOUD

- Built and deployed RAG-based chatbots and Agentic AI solutions using LangChain and LangGraph to enhance automation and decision-making.
- Applied prompt engineering techniques to optimize LLM responses, improving accuracy and user experience across diverse use cases.
- Developed and integrated APIs with Django, Flask, and FastAPI, enabling seamless interaction between generative AI tools and enterprise applications.

05/07/2022 - 15/11/2022 - BAHAWALPUR, PAKISTAN

DATA SCIENCE INTERNSTEMEYE TECH

- Developed and implemented machine learning models (Random Forest, Neural Networks) to significantly reduce fraudulent transactions in financial data.
- Streamlined data processing workflows with data pipelines for real-time fraud detection and prevention.
- Created interactive dashboards and reports (Streamlit, Power BI) to effectively communicate complex fraud patterns to non-technical stakeholders.
- Researched and evaluated emerging machine learning techniques (anomaly detection, ensemble methods) to improve data integrity and explore future advancements in fraud detection accuracy.

EDUCATION & TRAINING

11/09/2020 - 28/06/2024 - BAHAWALPUR, PAKISTAN

BSC COMPUTER SYSTEMS ENGINEERING- THE ISLAMIA UNIVERSITY OF BAHAWALPUR

Field(s) of study: Data Science and Machine Learning | **Final grade:** 3.65/4 | **Thesis:** Student's Performance Evaluation

Using Artificial Neural Network

05/10/2023 - 10/08/2024 - BAHAWALPUR, PAKISTAN

CERTIFICATE IN AI- PAK AI VISION GROUP

Field(s) of study: Calculus and Linear Algebra, Programming for AI, Machine Learning, Deep Learning, Generative AI

Link https://tinyurl.com/certificate-in-AI

SKILLS

Programming Languages:
Python, C++, SQL

Libraries/Frameworks:
NumPy, Pandas, NLTK, Matplotlib, sklearn, TensorFlow, FastAPI, Django, Flask

Data Visualization Tools:
Power BI, Streamlit

Machine Learning Techniques:
Linear Regression, Logistic Regression, Random Forest, SVMs, KNN, PCA, k-means, RNNs, CNNs, ANNs

Data Analysis & Mining:
Data Science, Data Analysis, Machine Learning, Deep Learning, Generative AI, NLP, RAG

Development Tools:
Visual Studio, Jupyter Notebook, GitHub, Postman, Git

Other Tools:
Microsoft Office (Word, Excel, PowerPoint)

SOFT SKILLS

Soft Skills

Analytical Skills, Organizational Skills, Leadership, Active Listening, Problem-Solving, Teamwork, Critical Thinking, Decision-Making, Communication, Collaboration, and Results-Oriented.

PROJECTS

- Medical Notes Compliance Checker using GraphRAG
- Patient Notes Summarizer and Patient Management System (Prompt Engineering, FastAPI)
- Employee Policy Handbook Chatbot using RAG
- Claim Denial Management System using CrewAI
- Vehicle Entrance System for IUB
- Forensic Sketch to Image Using DCGAN
- Exploratory Data Analysis on the Titanic Dataset
- EDA Dashboard on Sales Analysis Using Streamlit

CERTIFICATIONS

Certificates & Training

- 10-Month Certificate in AI Course, August 2024
- Python Crash Course (Google), August 2023
- Data Cleaning on Kaggle, October 2022
- SQL for Data Science by 365-Data Science, November 2022
- Professional Computer Course (Scholars College of IT), June 2017
- English Language Course (Scholars College of IT), June 2017

RESEARCH EXPERIENCE

Research Experience

- Conducted research on applying machine learning algorithms to predict survival on the Titanic dataset, resulting in models with a 10% improvement in prediction accuracy.
- Researched the application of DCGAN for generating real images from forensic sketches.
- Evaluated student performance using Artificial Neural Network.

LEADERSHIP ROLES & ACTIVITIES

LEADERSHIP ROLES & ACTIVITIES

- Worked as General Secretary of the IEEE Systems, Man, and Cybernetics Society in the Bahawalpur subsection.
- Worked as Chairperson of the IEEE Systems, Man, and Cybernetics Society.
- Worked as President of the IUB Kashmir Society.
- Worked as President of the Jammu Kashmir Student Council at Islamia University of Bahawalpur.

LANGUAGE SKILLS

Mother tongue(s): **URDU**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	B2	C1	B2
